

How to use this resource

These 3 feelings cards can be used in different ways.

As a classroom display, children can put their names by the picture that shows how they are feeling.

As a discussion point, children can talk about how the swodgerump might be feeling in each picture. How do they know? Whereabouts in the story might it be feeling like that? Can they think of a time when they felt like that?

As a storytelling aid. Print the pictures out on card and use lollypops to turn them into a swodgerump puppet!

Have fun!
